

2016 ACHPER TASMANIA OUTSTANDING PRACTITIONER SENIOR SECONDARY

PAUL JONES

Paul sets the bar high for his students. He challenges and pushes students to be the absolute best they can be. However, with this push comes unprecedented support. Often the queue out of his office door for students seeking support and assistance, as well as the multiple forms of feedback provision are testament to this.

Paul is the Sport Science guru. He is the first point of contact for any new or established teacher from any sector across the state. He has built up and developed a teaching and learning package as well as digital resources that rival any subjects.

Paul has ensured that Sport Science has maintained a high level of rigor and he has been Chief Examiner for the last 6 years providing mentoring, QA support, practice exam papers with answers, and general custodianship when dealing with external bodies.
